REPUBLICANS WAGING A VIGOROUS CAMPAIGN

County Chairman Crowell Sending Out Strong Letter to Voters to Stick to the Party and Republican Principles

On November 6th, every Republican voter of Westmoreland county will be expected to do his duty in respect to party as well as for the continuation of the prosperity of the country. County Chairman Crowell is sending out the following letter to the voters.

Greensburg, Pa.,
November 1, 1906

Dear Sir:—

November 6, 1906, the day of election, is near at hand. I take this means of calling upon each and every Republican voter to stand by his colors. The candidates upon the Republican ticket are clean, able and honorable men. Each one of them is entitled to every Republican vote in the county.

This is the year to stand by President Roosevelt and his administration. He has called upon all Republicans to join in sending a strong Republican delegation to Congress. Our Congressional district presents the name of the Hon. George F. Huff. The people know him. The President desires his return to Congress and the people of Westmoreland and Butler counties will delight in giving him the greatest majority our district has ever given.

The candidates upon our county ticket are likewise able, honorable and competent. Nothing has been, or can be said against any of them. They are worthy of the support of every citizen of the county. They are in every way well qualified to perform the duties of the offices to which they aspire. They are Republicans one and all. Vote for them.

The Democrats and their allies are active. With their ever chosen weapons of slander, malice and envy they hope to deceive enough Republican voters to enable them to elect some of their candidates. Rebuke them and their treacherous abettors. If every Republican will do his duty on November 6, Westmoreland will continue to hold her proud position in the front ranks of Pennsylvania's magnificient Republican column. Down with the slanderers of your state. Down with the maligners. Down with all cheap pretenders.

Do not be deceived by the cry that this election will not affect the prosperity of the country. If President Roosevelt and his administration is upheld, prosperity will continue. If the Democrats and their allies succeed, the mills will close and the "soup houses" will open.

Yours for Republican success,
CHAS. C. CROWELL,
County Chairman.

Robbed of Watch and Cash

Thomas Davie, an electrician in the Pittsburg Steel mill of this place, was robbed of a gold watch and $80 in cash at his boarding place in Monongahela yesterday. A stranger who claimed to be a friend of Davis was admitted to his room by the landlady.

Paid a Handsome Dividend.

The Monongahela Clay Manufacturing Company yesterday declared a dividend of 10 per cent on its capital stock amounting to $5,000.

WHY BRIDGE IS HELD UP.

Lack of Workman Not Lack of Structural Steel is the Real Cause of Delay.

It has been said that lack of structural steel delays the progress of the new bridge across the river from Monessen to Lock 4. This may be the reason given to the public by those interested, but the real reason for delay is the lack of structural workman, this class of people having been on a strike during all of the past summer, with no relief in sight.

The American Bridge Company with works at Ambridge and offices in the Frick building, Pittsburg, has hundreds of just-such contracts as this one, tied up because an amicable agreement cannot be reached with structural men, and the result is, structural iron is lying in piles all over the United States, awaiting a settlement, thus tieing up thousands and thousands of dollars. If it were not for the millions back of this immense concern, it would have been forced to the wall months ago on account of these conditions, and as it is, the strain is very hard, as, like in the Monessen-Lock 4 case, work can go so far and no farther, until the difficulty between bridge companies and the builder's union is settled, and that is not likely to be soon.

There is plenty and plenty of structural steel, and plenty of men to put it together, but they won't work. Hence the delay with our bridge.

Won't Pay; Won't Move.

Landlord Fined for an Attempt to Get Rid of Tenant by Force.

O. M. Umble was arraigned before Squire Jas. A. Watkins last evening, on a charge of disorderly conduct on information furnished by Mrs. Rosa G. Yeaton. Mr. and Mrs. Umble occupy one of the Dillinger flats on Donner avenue, and Mrs. Yeaton rooms with them together with her children.

Umble claims that she never pays her rent and she refuses to give up the room, although he has made several attempts to get her to do so. Yesterday it seems he attempted to put her out by force and the disorderly conduct charge was the result. Umble was fined.

Building Boom in Duquesne.

Following the announcement of the United States Steel Corporation that $10,000,000 will be spent in improvements at Duquesne, work having already been started on the new mills, a building boom has started in that borough. The Homestead Realty Company has decided to spend $75,000 in erecting 30 houses and a meeting of the company will be held soon to let the contracts. Other concerns are having plans drawn for tenements and small houses.

PRISONER BITES OFFICER

Officer Taylor Osborne had an exciting experince with two Finns last night which he will not soon forget. The Finns were acting disorderly and when Osborne attempted to place them under arrest, they resisted and in the scrimmage one of them got Osbornes thumb in his mouth and that member was terribly lacerated before the Finn could be made to let go. The biter finally escaped but his companion was captured. He gave his name as Sam Compt. He was released on a $10 forfeit and will be given a hearing this evening. an effort will be made to capture the biter.

Italians Shot Game Warden.

Finding three unnaturalized Italians hunting in the mountains near Altoona yesterday Game Warden Frank Whiteman of Altoona arrested one, whereupon the other two shot him in the hip and leg and fled.

Whiteman fired at them with his revolver and wounded one, but the others helped him to escape. Whiteman used the guns of the hunters as crutches and walked two miles to a railroad tower to get assistance to come to Altoona. His condition is serious.

RAILROAD COMPANY PUT UP WEAK FIGHT

Engineers Failed to Show That it Would be Practical to Make Under Grade Crossing

The case between the Monessen borough and the P. & L. E. railroad company which involves a grade crossing at River street was resumed before the commissioners appointed by court yesterday and the latter's testimony was taken.

Three civil engineers for the railroad company testified and attempted to show that it would be possible to open River street without establishing a grade crossing, but when cross examined by Attorney Robbins it was discovered that neither of them had made any accurate calculations and were not prepared to dispute the statements of City Engineer Irwin.

The first witness called for the railroad company was Civil Engineer Thornton, of McKeesport, field engineer for the P. & L. E. railroad. Mr. Thornton testified that an under crossing could easily be constructed at River street and made practical. When cross examined the evidence showed that he knew very little about actual measurements, so far as River street is concerned.

Engineer Roumain was the next witness called. His testimony was supposed to be favorable to the railroad company. He said he had been on the grounds of the proposed River street at Monessen, and that an under grade crossing could be constructed. He said the grade would be 12° from the railroad to Donner avenue. When questioned as to the cost he said the entire expense would be $11,000 without allowing anything for damage to abutting property or for retaining walls. He said a ton could be drawn up the grade at one load by two horses.

When questioned about the water that would collect in the pool under the railroad he said it would have to be sewered back up to Donner avenue, which according to Engineer Irwin's plans is up a grade of three feet per one hundred feet. This man said he took his observations the day before the hearing but that he had taken no actual measurements upon which to base his own testimony.

F. W. Patterson, former civil engineer of Allegheny County was the next witness called and his testimony ran in the same direction as the two former witnesses. He said the grade that could be made by going under the tracks, could be made practical, and that the cost to the borough would not exceed $11,000 but in cross examination it was proven that he had made no plans and had no correct estimate to submit.

J. M. Douthet was the last engineer called and his testimony was bad. He said a grade crossing was not necessary, and based his statement on datum furnished by the railroad engineering department. He said a 12° grade was practical, and 11 feet of a clearance was all that was necessary.

E. C. Satley and F. Oughletree, of the Page Woven Wire Fence Company were witnesses for the railroad company.

Mr. Satley testified to the danger of a grade crossing, at this point, and said that the Page shifter passed the place from sixty to one hundred times each day, and that a cut along their property would be damaging. F. Oughletree said an under grade crossing could be made practical and that to cross at grade would be dangerous on account of the shifter passing the place from sixty to eighty times each day.

Two additional civil engineers were called for the borough, and both testified as to the accuracy of the plans of City Engineer Irwin, and said that a grade crossing was impractical. Attorney Williams for the railroad company asked that the hearing be continued and that the commissioners visit the ground. They came to Monessen this morning, and went over the street, and returned to Greensburg at noon. Next Thursday is the day set to conclude the evidence.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—no thing else.

It was this fact that first correctly led Dr. Shoop in the creation of that now very popular stomach Remedy—Dr Shoop's Restorative. Going direct to the stomach, nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had

For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend

Sidney Justus, fruit dealer, of Mentor, Ohio, says: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping to lift anything, and often I could hardly straighten my back. The aching was bad in the daytime, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful, and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

MX SOUNDS SLOGAN TO RALLY TO ROOSEVELT

all to Pennsylvanians Expresses Earnest Wish of the President.

SOLEMN DUTY TO STATE AND COUNTRY

Shall the Head of the Nation Look In Vain to Republicans of the Old Keystone Commonwealth?

The recent utterances of Senator Philander C. Knox upon the political situation in Pennsylvania have everywhere been accepted as voicing the sentiments of President Roosevelt, in whose cabinet Senator Knox served as Attorney General, and with whom the junior Senator from this state is on the most intimate terms of personal friendship.

Senator Knox has been a frequent visitor at the White House recently and is familiar with the president's keen interest in the campaign here and his desire for the election of the full Republican ticket in the Keystone State

Senator Knox, in his speeches, points out that the Democratic party in this state injected national issues into the canvass by its platform declarations for Bryan

"However the case may be in other states," says Senator Knox, "the line of cleavage in Pennsylvania is the President, his policies, and his success and intelligent and honest purpose in working them out. Pennsylvania is invited now to reverse its momentous verdict of approval of the President's administration two years ago when challenged in a national campaign for the same reasons now advanced."

He further remarks: "There are no differences between the three platforms as to reform measures. An honest reformer could stand upon the reform planks of either party The Democratic platform expressly states "all important reforms the Republican platform now advocates have been consistently declared for and supported by the Democracy of the State for many years

"Making the same concession as to the fitness of Mr. Emery and his associates that they make in respect to Mr. Stuart and his co-candidates, it is obvious that the issue is not the men It is equally obvious that as between the Republican party and the Democratic party the issue is raised by the Republican plank indorsing President Roosevelt's 'splendid administration,' and by the Democratic plank denouncing the President's administration as a 'feeble and pretended' imitation of Bryan That this is the issues as between the two great parties is too plain for further consideration."

In referring to the "partnership" between the Lincolnites and the Democracy, Senator Knox says:

Why Belittle President?

"If the Democracy were in good faith in desiring to co-operate with the Lincolnite Republicans to reform politics in Pennsylvania why should they, as a part of their program, belittle our President and name his successor? Their convention was not dealing with a national ticket or national issues except as they went out of their way to do so. I do not accuse Lincoln Republicans, except so far as they are seeking to defeat Republican Congressmen, of desiring to misrepresent and thwart the policies and activities of the national administration, but I am firmly convinced that their partners in their arrangement have deliberately led them into a most unfortunate situation.

"Remember, we are having this contest with Democrats, and their banners and their mottoes inscribed thereon will be in evidence upon the field of victory if this is to be a Republican defeat."

At another point he declares:

Must Not Repudiate Roosevelt.

"Let any one who doubts the absolute accuracy of what I say ask himself this question: What would the Democratic party claim in the next national campaign if Pennsylvania would change a half million votes in this campaign where the Democracy challenge the efficiency for the public good and high motive of the President?

"No hamlet in the land is so remote as to escape their triumphant heralds, who would proclaim the stupendous fact that the Keystone state had repudiated Roosevelt, and the cry that as Pennsylvania goes so goes the Union, would be the slogan of our political foes."

Marked An Epoch.

After lauding the splendid work of the recent extra session of the Republican legislature of Pennsylvania, Senator Knox adds:

"It is because of all this that when Theodore Roosevelt contemplated the work of this last session he was constrained to say that it 'marked an epoch,' to which he added that he did 'not recall any other state legislature which in a similar length of time has to its credit such a body of admirable legislation.'

"Republican I would feel inclined to trust, at this time, the party that put in force this system of law so thoroughly protecting my political rights; but having always been a Republican I cannot conjure up a single doubt as to my duty"

Then again he says:

"It has been demonstrated that the great rank and file of Pennsylvania Republicans desire all that is best in government. They stand for clean principles and practices and have provided the means by which they are to be certainly secured.

"We have cleaned house. Why should we now move out?

Honor to Be a Republican.

"If a man is ashamed of being a Republican in Pennsylvania today," said Senator Knox, at the conclusion of his Pittsburg speech, "there never was a time in its history when he could have made that claim with honor.

"I cannot understand the attitude of people who are standing aloof or opposing the election of Mr. Stuart, while freely conceding that his pledges and promises are all that is desirable and that he honestly intends, if elected, to administer the government of the state solely in the interest of the people

"I cannot understand why a man should put up the cry of 'bossism' against an honest candidate who solemnly says he never recognized a boss and in the most specific manner declares he never will.

"I cannot understand those who publicly proclaim that the political rights of the people have been fully secured by legislation, and then prophesy disaster to the state through the exercise of those rights by the people.

"And more mysterious than all to me is the attitude of those Republicans who claim to have been instrumental in bringing about these reforms by appealing to the Republicans of the state, and through them to the legislature of the state, who now, after their voices have been heard and their advice followed, mutiny against the ship whose course they claim to have directed and consort with those whose most charitable wish is that she may go to everlasting destruction upon the rocks"

The Old Roman Epicures.

Almost any fish which had to receive salt in its curing, costliness, indigestibility and, to our way of thinking, nastiness was sure to take with the Roman epicure. And if he were unable to make it easily by other way he would add powdered precious stones or gold dust Nero dined on one occasion upon a peacock which was sprinkled with diamond dust, and specimens of that bird dressed with gold or with crushed pearls were by no means a rarity at the trichnit of the moneyed Romans A dish of parrots' tongues was a great delicacy. But a dish of parrots' tongues which had been capable, when in their proper place, of framing words was of almost incalculable value, which increased in a direct ratio with the vocabularies of the defunct parrots. Another bird for which the Roman epicure was in the habit of paying fabulous prices was the phoenicopter which is believed to have been the flamingo. It had its home in the most northerly parts of Scotland and Norway, and as this made it hard to get at the Romans appreciated it all the more and put it in the same rank with ostriches, buzzards and peacocks The tongues of these birds were specially prepared, together with the brains, and took the place which a hors d'oeuvre would now take.

The Words on a Cigar Box.

What mean the various words which are stamped on the lid and sides of a cigar box? These are not mere fancy names but terms actually descriptive of the cigar On the lid is the name of the cigar The front of the box describes the shape and size, as "conchas," "regalias," "regalias" which state the shape, and "perfecto infantes," "princesses," which specify the size Those may be combined, as "conchas speciales," "conchas finas," to state both shape and size. At the back of the box where the lid turns over, is stamped the quality of the cigar—"superiora," "fina," "fair" "superior" and "buena," using the terms in the descending scale The color of the cigar is declared on the right hand side or end of the box "Claro" signifies the lightest colored, "colorado claro" rather dark, "colorado" dark, "colorado maduro" darker "maduro" very dark, "oscuro" extremely dark, "negro" darkest.

The First Teacups.

Even after tea was introduced into Europe and had come into general use ten ups were scarce At the same time coffee was introduced, but apart from Constantinople the first coffee houses in Europe did not date back as far as 1645 in Venice 1650 in Paris, 1652 in London and 1691 in Lapsi From the first however, the conventional oriental coffee cup, without stem or handle was little used, and in Germany not at all. The Chinese teacup was used for tea, coffee and chocolate as well. Specimens of porcelain were undoubtedly introduced into Europe in the middle ages, yet not till the sixteenth century were cups in porcelain from China in any great quantities, and even then it was as articles of virtu Most of these found their way back to China again, as collecting porcelain is a lasting fad there, and high prices are paid for good specimens. The collection of Chinese porcelain, if only the genuine specimens are desired, requires immense study and knowledge, as the Chinese are skillful imitators and put numerous falsifications on the market.

Eating Fat.

Darwin relates that the Gauchos of the American pampas live for months on the fat meat of the oxen they watch over The Eskimos can get along very well by eating from five pounds to six pounds a day of reindeer or seal's flesh so long as it is not too lean, but contains a due proportion of fat Says the author of "Diet and Dietetics:" "Some men obliged to live a very fatiguing life, the trappers and hunters of the pampas of America and Siberian steppes, the inhabitants of very cold climates, the fishermen living on the banks of the frozen sea, can eat almost exclusively without suffering from it enormous quantities of meat or fish, but on two conditions - that the meat be accompanied by its fat and that the individual subjected to this diet lead a very active life in the open air."

A Remarkable Curiosity.

There is in Connaught, Ireland, a remarkable curiosity which gives an example of ancient oversight When the great famine of 1847 was upon the land the government of the day conceived the idea of opening a line of navigation from Galway to Ballina by way of Lough Corrib and Lough Mask, so as to avoid the dangers of the western coast. From Cong a canal was actually made to Lough Mask as part of the general scheme The work gave a great deal of employment, and so far the canal served its purpose But when it was completed it was found the canal would not hold water The fact that the dock of the district is of a very porous character had been overlooked

Rough on the Tortoise.

The tortoise is a great sleeper One was a domestic pet in an English house, and when his time for hibernating came he selected a corner of the dim coal cellar for his winter quarters A new cook was engaged soon after who knew nothing of tortoises In a few months the tortoise woke up and sallied forth. Screams soon broke the kitchen's calm On entering that department the lady of the house found the cook gazing in awestruck wonder and exclaiming as with unsteady hand she pointed to the tortoise, "My conscience look at the stone which I've broken the coal with' winter!"

The Game of Craps.

The game of "craps" is an old one Is the word itself a corruption of the French "crops," a favorite game in the gambling hells of the Palais Royal in the eighteenth century? Decherelle says it was a game played with dice and of English origin, that the name was sometimes written "Kraps" and the word was spoken when one selected in throwing 2, 3, 11 or 12 at the first cast. Encyclopedias shed little light on the subject and I do not remember ever to have come across novels or plays of the eighteenth century Potter Hall

Shetland Wool.

A curious fact about Shetland wool is reported with Shetland wool Over 300 years ago a cargo of wool belonging to the Spanish armada was picked on one of the islands The sailors who escaped taught the natives to make brilliant dyes from roots which they found, rendering those used for like purposes in Spain The descendants who now wear bright Shetland knitted comforters" retain secret dyeing ingredients of their "auld" mada.

Fruit Eating Is Beneficial.

If people ate more fruit they would need less medicine and would have better health Fruit eaten early in the morning on an empty stomach serves as a stimulant to the digestion, and apples and oranges eaten at any time in the day are good for business Stewed prunes and figs are also healthful at any time

No Birch Rods Now.

"The road to knowledge nowadays," said the first old schoolmaster, "is too swift and too easy It's a regular railroad"

"Yes," agreed the other old pedagogue, "and it's a railroad with fewer switches than are necessary" Philadelphia Ledger

Will He Make It?

A bull has forty rods to travel to reach a trap, and the tramp has thirty-two rods to travel to reach the fence If the bull travels one fourth faster than the tramp, how close will the latter come to getting the grand hoist? Ottawa Free Press.

The man who is never quite sure, "thinks perhaps" "guesses" "guesses" or "presumes," is no man to trust. His foundations are built on sand—failure.

Stock Company Next Week.

When the ladies attend the theatre nowa-days they expect to look upon the stage in a more or less sense as a reflex of prevailing fashions, especially when plays of a modern story are being interpreted This means that the respective actresses and actors of the company must be thoroughly equipped with the latest and most stunning gowns and other essential articles of latest wearing apparel. In no company on the road today are more stunning or costlier gowns worn than those shown by the members of the Chauncey-Keiffer Company, which will play a week's engagement in the Monessen Opera House, beginning Monday evening Nov 5th. The dresses and costumes of Miss Grace Keiffer, the popular star of this organization, are said to be the finest on the stage today. Miss Keiffer dresses her parts with infinte care, giving special attention to every little detail, and when she steps on the stage she is a picture of delight to every one in the audience.

This company does not rely entirely on the manner in which its respective members dress their parts to win success. A car load of special scenery is also carried, and for each and every play there is special features in this line. Headed by Miss Keiffer, this attraction is composed of ladies and gentlemen who know their art and who have won individual success in their respective line. It is a strong and well balanced company and local patrons will get more than their money's worth during the engagement of this company.

ONE LIFE LOST IN BAD WRECK.

Fastly Moving Freight Parts in Newell Yards this Morning Resulting Disastrously.

Fayette City, Pa., Nov. 2—Special to the Daily Independent — A disastrous freight wreck occurred on the P. & L. E road at the north end of the Newell yards about 5 o'clock this morning, resulting in the loss of one life and the injury of several persons A number of freight cars were demolished, tracks were torn up and traffic was delayed over four hours.

Thomas Burkey, a brakeman, was instantly killed The names of the injured could not be learned, but the entire crew of the freight train was more or less bruised and badly shaken up.

The train was pulling out of the Newell yards when the accident occurred and was moving at a fair rate of speed. Suddenly a coupling broke in about the middle of the train and the rear portion was stopped instantly. The momentum was so great that the cars were piled one up on the other, many of them being reduced to kindling wood.

Burkey was riding on one of the cars and was dashed to the ground, the fall killing him instantly. His body was removed to the morgue. Several others of the crew received minor cuts and bruises, although none were seriously injured.

The work of removing the wreckage was immediately begun and a wreck train was dispatched to the scene. Notwithstanding all possible speed was made traffic was delayed for over four hours. The train due in Monessen at 6.33 did not arrive until 10 35 and the second followed immediately after it.

A Dollar an Ear for Corn.

The Pennsylvania Live Stock Breeders' Association announces that one of the features of its annual meeting at Harrisburg, January 22-25, 1907, is a Corn Show, open to all corn growers of the State whether they are members of the Association or not. Liberal prizes are offered for corn, 10 ears of which will constitute an exhibit, and these prizes are in cash The National Stockman and Farmer of Pittsburg has contributed $100 in cash to encourage this exhibit, and to this the Association and the Department of Agriculture will add enough to make the prizes worth competing for. There will be 45 cash prizes, besides specials. This is Pennsylvania's first great Corn Show, and it should bring out a big lot of fine grain, some of which may later be used in exhibits at Jamestown or other Expositions. Every corn grower who can find ten ears of choice corn when he goes to husk it has a whack at the money. He should write at once to E. S. Bayard, Secretary, 203 Shady Avenue, East End, Pittsburg, for particulars and enroll himself as a contestant. A postal card will do it! Prize list will be forwarded on application to the Secretary.
